DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed 10/26/05 has been received. The references cited on the 1449 have been crossed through, since they were cited by the Examiner on the 892 associated with the previous office action.

Election/Restrictions

2. Applicant's election of Group I in the reply filed on 01/27/06 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1-8 and 10-51 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

5. With respect to claims 1-8 and 10-25, the Examiner was unable to find support for the negative limitation "uncut," as recited in the present claims. Moreover, applicant failed to indicate where this limitation is properly supported in the original specification. Accordingly, this negative limitation is considered to constitute new matter.

Art Unit: 1775

6. Regarding claims 26-52, the Examiner was unable to find support for the limitation "grown exclusively in a bulk growth direction along the c-axis," as recited in the present claims. Moreover, applicant failed to indicate where this limitation is properly supported in the original specification. Accordingly, this limitation is considered to constitute new matter.

Response to Arguments

7. Applicant's arguments, see ***, filed 01/27/06, with respect to the rejection(s) over Motoki have been fully considered and are persuasive. Therefore, the rejections have been withdrawn. However, a new ground(s) of rejection is made under 35 USC 112, first paragraph.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

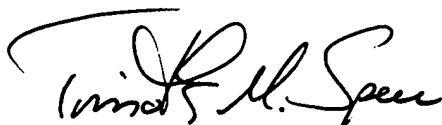

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
